• software developer •

ABOUT ME

I'm a senior at the University of Massachusetts, Amherst, pursuing degrees in Computer Science and Astrophysics. When not coding, you can find me on a bike ride, blasting Pink Floyd, or reading a book. I have not found someone I like half as much as the Python programming language.

EDUCATION

2018 - 2022 • University of Massachusetts, Amherst

Computer Science (B.S.), Astrophysics (B.S.)

SIDE PROJECTS

- aj8upp.al.github.io | interactive portfolio
- [rendezvous.buzz](#) | Student-centralized nexus for UMass personnel to connect and stay on top of life

EXPERIENCE

- July 2021 - Harvest Fintech, Inc.**
Software Architect, Software Engineer
- Spearheading engineering of the Harvest solution.
- Jan 2021 - The University of Massachusetts, Amherst**
Student Software Developer
- Development and maintenance of software for the physics department.
- Apr 2020 - The Arena, Inc.**
Sept 2020 Student Software Developer
- Spearheaded engineering for the full stack web application for The Arena
- Oct 2019 - The University of Massachusetts, Amherst**
Oct 2020 Research Assistant
- Simulated fluid dynamics for the cooling of CO2 for use in particle physics detectors
- June 2019 Got It.AI**
-Aug 2019 Software Engineer Intern
- Developed the ExcelChat chrome extension
 - Built microservice for automation of dataflow through Got It Study

SKILLS

 python	 SQL	 React.js	 Redux.js	 AGILE
 javascript	 C	 PostgreSQ	 Flask	 MVC
 node.js	 java	 L	 Full Stack	 Linux
		PyTorch	Dev
